STATEWIDE POLICY RECOMMENDATIONS

The California Housing Partnership calls on State leaders to take the following actions to provide relief to low income families struggling with the high cost of housing:

- » Replace Redevelopment funding for affordable housing with at least \$1 billion annually to help local governments meet their State-mandated production goals.
- » Expand the State's Low Income Housing Tax Credit Program by \$500 million per year to jump-start affordable housing production and preservation.
- » Create a new California capital gains tax credit to preserve existing affordable housing at risk of conversion and to fight displacement pressures in Opportunity Zones.
- » Reduce the threshold for voter approval of local funding of affordable housing and infrastructure from 67% to 55% as was done for educational facilities in 2000.

LOCAL RECOMMENDATIONS FOR KERN COUNTY

Cities and the County should:

- » Reduce their impact fees to promote the development of affordable homes.
- » Complete master CEQA and NEPA reviews of vacant multifamily zoned land to speed the development of affordable homes on these properties.
- » Update their General Plan and zoning ordinances to increase the amount of vacant land that can be developed for higher density affordable homes.
- » Encourage the use of density bonus, accessory dwelling units and other state housing laws by updating local ordinances and encouraging their use.
